

School Chat Privacy Policy

Name

When you create an account on School Chat, you enter your name in the sign up form. We use this data in class chats so that other users know who you are on our platform.

Email

When you create an account on School Chat, you enter your email in the sign up form. We use this data to allow you to change your password if necessary and to sync your account between all your devices.

School

School Chat requires you to provide your school when you sign up. All school data is already publicly accessible. School Chat records and collects the following data about the school you choose:

- The name of the school (Ex. Billy Bob High School)
- The City that the school is located in
- The State or Province that the school is located in
- The Country that the school is located in

Password

All passwords are stored securely on Google Cloud Platform. School Chat does not directly handle the storage of passwords.

Chat Data

School Chat stores chat data for up to a maximum one year. Chat data can be deleted at any time for any reason by the administrators of School Chat if they deem it is necessary to protect users. Chat Data is stored securely on Google Cloud Platform, but is publicly accessible to users via the app. Confidential information should never be shared over the School Chat platform. School Chat is intended to be a place where users can get help with school assignments from their peers.

School Chat collects the following personally-identifying information about chat messages (defined as "Chat Data" above)

- The name of the sender of the message, as entered when the user created an account on the School Chat platform.
